report back to the Council the result of
his conference with the city attorney of
Richmond, and submit the bill that would
be offered before the Legislature to the
Council.

For Clear Water.

The Board, with very little discussion,
passed the resolution providing for the
issuance of \$20,000 worth of bonds for
the establishment of a clear water plant
in the city. The filtration plant is to be
located near the site of the pump house,
and will furnish to the city one million
gallons of pure water each day. It will
not cost \$20,000, but its amount or as
much thereof as may be necessary has
been set aside, or will be set aside, by
the Finance Committee.

'TIS HARD TO LOSE "OUR CHAUNCEY"

Brackett Alone Voted for Reso-
lution to Demand Senator
Depew's Resignation.

DEMOCRATS DID NOT VOTE

Latter Felt Like the Man Who
Looked On While His Wife
Fought a Bear.

(By Associated Press.)

ALBANY, N. Y., January 16.—The
State Senate to-day, by a vote of 34 to
1, rejected the resolution of Senator Ed-
ward G. Brackett, of Saratoga, demand-
ing the resignation of Chauncey M. Depew
from the United States Senate. After a
debate lasting more than three hours,
and characterized on the one hand by
Senator Brackett's unparagoned denunciations
of Senator Depew and the insurance
companies, and on the other by almost
equally harsh criticisms of the intro-
duction and the motives of the intro-
duction of the resolution, the roll call
showed Senator Brackett's own vote to
be the only one in favor of the resolu-
tion. Every other Republican Senator
voted against it, with the exception of
Senator Armstrong, who was absent.

The fourteen Democratic Senators were
excused from voting on the resolution,
though the motion to excuse them was
opposed by Senator Brackett, who ex-
pressed his desire to "put every Sena-
tor on record on this moral issue." Sena-
tor Grady, the Democratic leader said
the Democrats regarded the Depew issue
as purely a Republican affair; they felt
like the man who, looking on while his
wife fought a bear, cried: "Go it old wo-
man, go it bear!" The more severe the
consequence to both the "old woman" and
the "bear" in this instance, the better
the minority would like it.

Two Men Injured.

Dr. Turman, of the ambulance, was called
to the Cedar Works twice yesterday
to treat men who had been injured by the
machinery. A white man named Green
got his hand caught in a vice and two of
his fingers were mashed. He was treated
and discharged.

At 4 o'clock Solomon Wilkins, a negro,
was hit on the head by a flying piece of
wood. Four stitches were necessary to
put his head back in proper shape.

To Elect Captain.

"C" Company, of the Seventeenth Vir-
ginia Regiment, will hold their election
of captain to succeed Captain Skilpith,
resigned, next Monday night. The date
for filling the other vacancies has not yet
been decided upon.

Company "C" had a very satisfactory
drill last night, and the officers were much
pleased.

FIRE INSURANCE.

Year Good One For the Com-
panies, Notwithstanding Loss.

(Special to The Times-Dispatch.)
RALEIGH, N. C., January 16.—Com-
missioner Young, of the State Department
of Insurance, says the reports of fire in-
surance companies for 1905, filed in his office,
shows they have paid for fire losses in
this State during the year \$1,157,652, and
that the total for 1906 will probably be
larger, but not in proportion to the busi-
ness done. That the ratio of fire losses
is decreasing in this State more rapidly
than in other Southern States, is a grati-
fying feature of the past year's business.
The increase in amount that has been
put in home companies, and that the
policyholders now receive more readily as
those of Northern or foreign companies.

The American fire losses during 1905
were \$17,515,730. The commissioner says
that owing to the general wave of pros-
perity in the year has been a good one in
spite of heavy losses, for the underwriters.

tence, confinement to the Academy
grounds for one year, on account of his

CASE AFTER CASE Plenty More Like This in Rich- mond.

Scores of Richmond people can tell you
about Donan's Kidney Pills. Many a happy
citizen makes a public statement of his
experience. Here is a case of it. What
better proof of merit can be had than
such endorsement?

J. S. Good, retired farmer, of 217 West
Main Street, says: "For twenty years I
have had attacks of lameness and sore-
ness across the small of my back; some-
times I was hardly able to get up or down
from a chair, and when I stooped or made
any sudden or awkward movement when
the attacks were in the acute stage the
sharp twinges across the loins fairly made
me groan. These excruciations from the
kidneys being highly colored, irregular and
too frequent in action, particularly so
when I contracted a cold, compelled me
finally to consult a physician. I also used
more than one standard remedy, and wore
plasters, but I met with very indifferent
success until I bought Owens & Minor's
drug store for Donan's Kidney Pills. They
proved to be just what I required. Un-
doubtedly results followed the treatment
very promptly, and when I had completed
it the aching disappeared and the kidney
secretions resumed their ordinary condi-
tion."

For sale by all dealers. Price, 50 cents.

FIVE SHIP FULL OF STUMP HOLES

Goes Ashore on the Site of a
Former Forest, Where
Stumps Were Four Feet.

(Special to The Times-Dispatch.)

NORFOLK, Va., January 16.—The five-
masted schooner Fannie Palmer, which
was, last week, driven ashore on the
Virginia coast, twelve miles south of
Cape Henry, will be a total loss. Edgar
F. Luckenbach, of New York, who came
here to direct the work of the wreckers
who attempted to float the schooner, said
to-day that the Palmer, having gone
ashore on the site of a former forest,
old tree stumps, some as high as four
feet, caused holes to be driven in the bot-
tom of the vessel, and boards from her
bottom are now lying ashore near the
scene of the wreck. The wreck is full of
water and it is declared that she can
never be gotten off the beach. The proba-
bilities are that the work of the wreck-
ers of all varieties will begin to-morrow
or Thursday.

HARLEM RIVER ACCIDENT

Foreman and Assistant Also
Hurt in Another East River
Explosion.

(By Associated Press.)

NEW YORK, January 16.—Two negro
tunnel workers were killed by suffocation
and carbon dioxide, two were drowned,
two others were seriously overcome, and
the foreman and his assistant suffered
severely in rescuing those who sur-
vived when a compressed air pipe burst
in the East River tunnel on Mon-O-War
Reef, opposite Forty-second Street, early
to-day.

The bodies of the two drowned men
still lie at the bottom of the shaft, twenty
feet below the level of the water. They
were overwhelmed by the water that entered
the shaft when the pressure was removed.
The other two dead men were hoisted to
the surface by the hoist and the assist-
ant, who also rescued the two whose
lives were saved. The foreman and his
assistant left the bottom of the shaft and
were hoisted to the river level with the
bodies just in time to escape drowning
and death by the "bends," as the dreaded
carbon dioxide is called. Harold R. Shal-
lers, the foreman, and Charles J. Gibbons,
coroner after his recovered consciousness,
but was paroled in the custody of the su-
perintendent of the work.
